VISION CLEARANCE, CORNER AND
REVERSED CORNER LOTS

Section 3-12.01

TRAFFIC SIGHT OBSTRUCTION PROHIBITED

All corner lots and reversed corner lots subject to yard requirements shall maintain for safety purposes a triangular area one angle of which shall be formed by the front and side lot lines separating the lot from the streets, and the sides of such triangle forming the corner angle shall each be fifteen (15') feet in length, measured from the aforementioned angle. The third side of said triangle shall be a straight line connecting the two mentioned points which are distant fifteen (15') feet from the intersection of the lot front and side lines, and within the area comprising said triangle no tree shall be allowed, nor fence, shrub or other physical obstruction higher than thirty-six (36) inches above the established grade shall be permitted.

For information concerning vision clearance at intersections, contact the Building Department at City Hall, 545-5621, ext. 273.
